# IMBD - Impact Mitigating Boat Decking

## How to calculate the quantity of IMBD required

For the deck layout above the calculation is:-  
4 rows of 3 IMBD Tiles = x12 IMBD Tiles  
or x2 IMBD Half Sheets  
or x1 IMBD Full Sheet

## Size & Weight

IMBD Tile	380 x 760mm	(15" x 30")	2.5kg	(5.5lb)
IMBD Half Sheet	760 x 2280mm	(30" x 90")	15kg	(33lb)
IMBD Full Sheet	1520 x 2280mm	(60" x 90")	30kg	(66lb)
	Weight per Square Metre		8.5kg	(18.7lb)
	Weight per Square Foot		0.8kg	(1.76lb)

**Weights:** Approximate weights are reduced by cutting around deck fittings and seats

## Quantity & Area

IMBD Tile	Packed in boxes of x8
IMBD Half Sheet	Covers the same area as x6 Tiles
IMBD Full Sheet	Covers the same area as x12 Tiles

**Coverage:** Approximately x2 IMBD tiles @ 380 x 760 are required for each crew position
